SUMMARY

IIT Delhi graduate and multilingual Product Analyst at Accenture Japan, with 3+ years of experience bridging engineering teams and business stakeholders across 4 countries in consumer goods, e-commerce, and beverage sectors. Owns ambiguous, cross-functional problems, from restructuring multi-country processes to resolving security vulnerabilities. Skilled in Agile methodologies, data-driven decision-making, and mentoring team members through structured accountability frameworks to drive measurable outcomes.

EXPERIENCE

Accenture Japan — Product Analyst, Tokyo, Japan

11/2023 – Present

Client: Global Consumer Goods Company (Tobacco/CPG) — **Business Consultant**

- **Cross-Functional Process Ownership:** Cut cross-team ambiguity delays by **75%** and onboarding time by **90%** by using **GenAI** tools to build a **bilingual** SharePoint repository with process flowcharts for a **4-country** rollout (Japan, US, India, Vietnam)
- **Security Remediation:** Improved security compliance by **30%** by leading Salesforce remediation and authoring solution designs
- **Leadership & Performance Management:** Minimized sprint deliverable slippage from **40% to 0%** and weekly overtime by **12** hours, while lifting a junior's first-attempt PR approval rate by **50%** through structured mentoring

Client: B2B E-Commerce Platform — **Senior Product Analyst**

- **Competitive Analysis & Feature Strategy:** Grew user retention by **45%** and site traffic by **76%** by spearheading competitor analysis that informed multi-language and UI feature rollouts
- **Process Automation & Scalability:** Lifted engagement by **40%**, conversions by **14%**, and saved **700+ hours** annually by automating a manual promotional workflow with real-time CTR tracking and caching
- **Root Cause Analysis & UX Optimization:** Reduced support-page drop-off from **45% to under 5%** by diagnosing a technical gap via session-replay analytics and shipping a scalable fix

Client: Global Beverage Company — **Product Analyst**

- **Security Risk Mitigation:** Raised security compliance score by **60%** by identifying vulnerability patterns via AWS Athena and CloudWatch, and integrating continuous scanning (StackHawk) across a **120-person** team for faster threat detection

B Reporters — Full Stack Developer (Internship), IIT Delhi

06/2021 – 07/2021

- Boosted platform reliability by **56%** by launching an end-to-end web platform using the **MERN** stack and **CI/CD** pipelines

Recools — Frontend Developer (Internship), IIT Delhi

01/2021 – 02/2021

- Drove a **42%** boost in user retention by designing responsive React.js interfaces for a job-search app scaling to **400+ users**

EDUCATION

B.Tech in Civil Engineering, Indian Institute of Technology Delhi

2019 – 2023

PROJECTS

IIT Delhi

- **Glass Property Prediction Model:** Developed an ML model with SHAP analysis, reaching **65%** accuracy on INTERGLAD data
- **Virtual Question Answering Machine:** Built a VQA system using ML and React.js, achieving **98.9%** accuracy in attribute analysis

SKILLS

Operations & PM: Agile/Scrum, JIRA, Confluence, Salesforce, Backlog Management, Stakeholder Management, SharePoint, Notion
Data & AI: SQL, MongoDB, AWS Athena, Excel, Python, Power BI / Tableau, Prioritization Frameworks (RICE, SWOT, GAP), Amplitude (A/B Testing), Google Analytics, Generative AI Workflows (ChatGPT, Claude), Prompt Engineering

Product Design: User Story Writing, User Personas, UX Research, Product Roadmap, Figma, Product Metrics, Project Management

Cloud & Tech: AWS Cloud, GitHub, CI/CD

Full Stack Development: Java, REST APIs, JavaScript, React.js, Node.js, HTML, CSS, OpenAPI Specification

Languages: English, Hindi, Japanese

CERTIFICATIONS

- **AWS Certified Cloud Practitioner**
- **JLPT N4** – Japanese Language Proficiency Test

LEADERSHIP & IMPACT

- **Event Team Head, IIT Delhi:** Led **20+ members** across logistics, operations, and marketing for Civil department events
- **Hostel Representative, IIT Delhi:** Managed budgets and fundraising events, raising **INR 5 lakh** for mess workers during COVID-19
